Free Registration Ticket (Value: 800 USD)
for
Virtual BBEST2020-21/Biofuture Summit II
Conference on 24-26 May 2021

The main aim of the EU-funded project BIOFIT is to facilitate the introduction of bioenergy retrofitting in the following five industry sectors: first-generation biofuels, pulp and paper, fossil refineries, fossil firing power and combined heat and power plants.

For more information, please visit the project website www.biofit-h2020.eu

Within BIOFIT a virtual Business Mission to Brazil serves to exploit opportunities for export markets for European technology providers and industries and to facilitate knowledge exchange (target sectors include advanced biofuels and CHP applications).

In order to promote cooperation and exchange between European industry and private sector players with stakeholders from research, industry and the public sector in Brazil, the **BIOFIT project offers a limited number of Free Registration Tickets (Value: 800 USD) to representatives from European private sector organisations to attend the upcoming virtual BBEST2020-21/Biofuture Summit II Conference on 24-26 May 2021.**

The BBEST2020-21/Biofuture Summit II Conference is the leading gathering of bioenergy stakeholders in Brazil with already more than 550 registered participants.

The current conference programme is available at: <https://bbest-biofuture.org/v2/>

Stakeholders interested to receive a Free Registration Ticket are invited to complete the Motivation Form (below) and send the form to:

Dr. Rainer Janssen, WIP Renewable Energies (rainer.janssen@wip-munich.de) and

Dominik Rutz, WIP Renewable Energies (dominik.rutz@wip-munich.de)

Submission Deadline: 26 March 2021

The eligibility of applications will be checked by an internal BIOFIT project committee.

Successful applicants will be informed before 9 April 2021.

Template Motivation Form

Section 1: Background and company details

1. Provide a short description of your company, including field of activity, main location of activities, company size (number of staff, turnover), year of establishment.
2. Indicate contact details including the website if available.

Your text

Section 2: Motivation to benefit from Free Registration Tickets

1. Provide a brief description of your field of interest (e.g. advanced biofuels, CHP applications) for cooperation and/or knowledge exchange with stakeholders from Brazil.
2. Indicate sections of the conference programme you are most interested in.
3. Indicate stakeholders from Brazil (research, industry and public sector) you would be interested to virtually meet.
4. Describe specific conference features you would like to benefit from.

Further information on BBEST2020-21/Biofuture Summit II Conference

Based on the continued severity of the global COVID pandemic, which is unlikely to allow for the normalization of international travel and the holding of large in-person events, and encouraged by the success of the Conference's virtual segment in late 2020, the organizing committee of the joint BBEST2020-21/Biofuture Summit II Conference has decided that the main May 24th-26th 2021 proceedings will be held entirely in a virtual format.

The organisers have prepared exciting features that can make the BBEST-Biofuture Summit II Conference an engaging and dynamic event, going well beyond a series of webinars. Using the Whova online conference platform, the event will allow for ample participant-to-participant networking and fruitful interaction with the speakers.

Conference features include:

- The full extent of the original BBEST-Biofuture Conference Programme, with a total of 38 sessions, made available through the Whova platform to conference participants in a "Netflix" like, attend-when-you-can model
- 550+ registered participants from 30 countries, from industry, academia, governments and international organizations
- Three official "conference days" from 24-26 May 2021, including one main live debate session per day and dozens of pre-recorded technical sessions, with the possibility of interacting, attending sessions and participate both before and after the official dates
- Live, synchronous and asynchronous Q&A with panelists through the Whova platform chat
- Full featured forum where any participant can raise topics and provoke debate
- Full one-to-one and small group conversation features, where attendees can network with others at will, and book live, private video chats via the Whova platform
- Exhibition and sponsor booths
